NEW SCHOOL TO PROVIDE PLANNERS;
TRADE SCHOOLS TRAIN WOMEN

TO HAVE 3-YEAR COURSES -- Rzeczpospolita, No 280, 11 Oct 49

The new School of Planning and Statistics, which by decree of 16 August succeeded the former Central School of Commerce, will be mainly concerned with training economic planners and statisticians. Three-year courses will provide hundreds of graduates for major industries, unions, administrations, banks, ministries, and the State Economic Planning Commission. It is expected that 600 - 700 economists will graduate in the next 3 years.

The school will consist of four departments: industrial, commercial, and financial planning, and statistics. Programs and courses will be modeled on the Soviet pattern; Marxist indoctrination will also be included in the program. Theoretical studies will be supplemented with practical work in various economic fields. Two years hence, a fourth year of study will be added.

Students will be aided by scholarships, free meals, housing, etc. The sons of industrial workers and small farmers will comprise 69 percent of the student body enrolled for the first year.

NEW TRAINING COURSES FOR WOMEN -- Trybuna Ludu, No 281, 12 Oct 49

About 1,100 women, heretofore unemployed, will be trained in newly established trade schools. Most of these women will work in the construction industry, but 180 will be employed in the meat-packing industry, 200 in transportation as drivers and conductors, 120 in the post office as mail carriers, and 100 at the Regional Railroad Directorate as conductors, cashiers, etc.

WOMEN TO RELIEVE SKILLED LABOR SHORTAGE -- Trybuna Ludu, No 281, 12 Oct 49

Warsaw is undergoing a shortage of skilled labor, expected to increase during the next building season. To remedy this condition, professional training courses will enroll about 1,000 women this winter.

The building authorities have recently advanced a project suggesting that building enterprises train their own workers during the winter. The training division of the building authority will also instruct large numbers of young workers and women.

FEMALE MINERS HOLD MEETING -- Rzeczpospolita, No 281, 12 Oct 49

The National Committee of Women Workers of the Coal Industry held a meeting attended by 300 mine supervisors and passed resolutions to increase work productivity, improve standards, and hasten completion of the Three-Year Plan.

TO INTRODUCE WORK CERTIFICATES -- Trybuna Ludu, No 281, 12 Oct 49

Although "work certificates" have already been printed they have not yet been issued by the Building Trade Union. These records are to contain the employer's remarks on the worker's qualifications, punctuality, discipline, use of alcohol, etc. The certificates constitute a permanent record for the employer regardless of the mobility of workers in the trade.

DRAFT NEW MARRIAGE CODE -- Rzeczpospolita, No 278, 9 Oct 49

A mixed Polish-Czechoslovak judicial commission has drawn up a new marriage code to be presented to the legislative authorities. The code is based on the Soviet pattern and stresses the stability of marriage as a social institution. Divorces are to be granted by a court decision and only for legally valid reasons.

All property acquired during the marriage is owned jointly. A married woman may keep her maiden name and the husband may take his wife's name; the child's last name may be chosen by the parents. Civil marriage must precede a church ceremony. Children born out of wedlock have the same rights as legitimate children.

WARM CLOTHING AVAILABLE -- Rzeczpospolita, No 281, 12 Oct 49

General merchandise stores in Warsaw carry a large assortment of warm woolen materials, clothing, and sturdy footwear. Some shortages, however, are still noticeable because of higher seasonal demand and because speculators are buying entire stocks of the most desirable merchandise. Flying squads catch several persons daily in this illegal activity.
